	TÜV SÜD Group is one of the largest testing, inspections and certification bodies globally established since 1867. That means there is over 140 year of history. It commits itself to provide technical services in the main business segments “industry” , “product” and “mobility” besides further segments. Its range of services embraces inspections, tests and expert opinions	

as well as certification and training. Our objectives are reliability, safety and quality as well as environmental protection and cost effectiveness. Our concerted efforts are targeted at winning our clients' trust, at surpassing their expectations with the help of our enthusiastic employees, whenever possible, and at enhancing our corporate value.

TÜV SÜD Group is represented internationally by more than 130 sites. More than 20% of sales are already earned abroad. In 2005 about 10,000 employees realized sales of more than EUR 1 billion. The Chinese branch of TÜV SÜD Group was established in 1991, having 6 offices (Wuxi, Shanghai, Guangzhou, Shenzhen, Beijing and Hongkong) .

TÜV SÜD Industrie Service GmbH became one of the first organizations in Germany that has been designated as operational entity for climate change projects based on the Kyoto Protocol. This was decided by the Executive Board in charge of the Clean Development Mechanism in 2004. Over the last several years, TÜV SÜD experts have successfully accompanied and verified more than 200 climate change projects in more than 30 countries, and submitted over 40 new methodologies to the Executive Board. TÜV SÜD Industrie Service GmbH is accredited for almost all scopes. Recently at the 25th meeting of the EB, we succeeded to expand our accreditation status to the sector of afforestation and reforestation. TÜV SÜD is the only DOE allowed to validate the latter at the moment.

The services of TÜV SÜD Industrie Service GmbH have been rapidly developed in China. The following projects have been finished by TÜV SÜD Industrie Service GmbH:

- First registered successfully CDM project—Huitengxile Wind Power Project
- First issued CERs Project—Nanjing Tianjingwa Landfill Gas to Electricity Project
- First approved methodology of afforestation and reforestation by EB.

TÜV SÜD Industrie Service GmbH will deliver CDM services to the Chinese clients with local experts in the following service scopes:

- Validation, Verification and Certification of CDM projects
- Validation, Verification and Certification of JI projects
- Certification of VER projects
- Submission of new methodologies to the CDM Executive Board for approval
