	China Environmental United Certification Center Co.,Ltd (CEC) is a Designated Operational Entity (DOE) of clean development mechanism (CDM) accredited under the UNFCCC to undertake validation and verification/certification services for CDM project and VER project.	

Organization Briefing

CEC is an integrative certification service body on management system and product certification especially the authoritative certification body in environmental field, which subordinate to the Environmental Development Center of Ministry of Environmental Protection. CEC was established with integrated resources from the formal Secretariat of China Accreditation Committee of Environmental Bodies (CACEB), China Registration Committee of Environmental Auditors (CRCEA), China Certification Committee of Environmental Labeling Products (CCEL) and Chinese Research Academy of Environmental Sciences (CRAES). CEC employs a team of auditors and technical specialists with full audit practical experience and management experience on climate change, and have a comparative advantage in understanding domestic regulations, industry technologies, project management and communication, client service etc. CEC, as an entity offering GHG emission validation and verification/certification services to CDM projects around the world, aims to build on our achievement in tackling climate change and achieving sustainable development through the providing third party services of credibility, independence, integrity, transparency and equality to authorities, companies, institutions and individuals from a wide range of industries and sectors.
